

TRANMADE PROJECT • TRONDHEIM, NORWAY

This project was inspired by alcoholism. Since I began brewing, I could now afford for it. These batches are generally characterized by my emphasis on cheapness and alcohol by volume. "Tastes consistently like piss!" is the first response I got, and to that I have to say: Don't complain, just drink more to forget the taste!

Tranmade

PROJECT: BEER

PIßNER

IDK% ALC/VOL • 0.5L

BREWED & BOTTLED BY ANTON TRAN

Drink responsibly.
May not contain tran
or piss, but you can
ask for it if
preferred. I
wouldn't recommend
it, but each to
their own I guess.
